NET ATELIER

PROJECT RECORDS FOR INTERIOR DESIGNERS

# Get your evenings back for design.

When a client changes a choice, change it once and spend less of the night repairing budgets and draft documents.

1

## Change once, anywhere. No repetitive work.

Change a fabric or a finish and the budget, the draft proposal, the draft order and the draft invoice all update from that one change. You stop making the same change again in four places.

2

## Instantly import product details from web pages.

Copy a product link from a supplier's page and paste it into Net Atelier. The name, the price, the colour and the photo arrive on the board and in the budget, so nothing is retyped and no price is mistyped.

3

## Bring the board you already made.

A board built in PowerPoint or Canva imports in about 30 seconds. The hours you already spent on it are not thrown away, and you carry on from where you stopped.

## Bring a current board and see it become the start of a proposal.

14-day free trial. Card required. Cancel anytime.

$49 per month for one user. Each additional user is $9 per month.
