PROJECT RECORDS FOR INTERIOR DESIGNERS

Turn a finished board into a proposal that day.

Keep the momentum after a design decision, instead of letting project paperwork wait until the work has gone cold.

1

Bring the board you already made.

A board built in PowerPoint or Canva imports in about 30 seconds. You start from finished thinking instead of an empty page.

2

Go from a finished board to a first proposal the same day.

The products, the budget and the proposal come from the same project, so a finished board is most of the way to a sent proposal.

3

Instantly import product details from web pages.

Copy a product link from a supplier's page and paste it into the project. The details and the photo are saved with the selection, so nothing has to be rebuilt when the proposal is finished.

Use a board from a current project and see the route to a same-day proposal.

14-day free trial. Card required. Cancel anytime.

$49 per month for one user. Each additional user is $9 per month.
