

THE CONNECTED PROJECT

Less admin. More time for design.

Interior design workflow software.

Connected product specifications across concept boards, the master budget, proposals, purchase orders, and invoices.

Follow one living room project, from the first presentation to the client invoice.

LIVING ROOM · CONCEPT BOARD

Illustrative project · Product images and specifications stay connected to the commercial work.

01 / IMPORT

Start with the presentation you already have.

Import your Canva or PowerPoint presentation.

Bring your existing presentation into Net Atelier. Then add and manage the product specifications for that project's concept board.

EXISTING PRESENTATION

Net Atelier project

02 / PRODUCT PICKER

Less manual entry. Faster product sourcing.

AI Product Picker Web Browser Extension

Instantly add a product from a supplier or other website to your project's concept board, with its image, price, colour, specifications, and other listed details attached.

ADDED TO LIVING ROOM CONCEPT BOARD

03 / CONCEPT BOARD

More confidence in client presentations.

Present the concept. The product details stay connected.

Each product on the concept board retains its specifications and financial details for the team

CLIENT PRESENTATION · LIVING ROOM

TEAM PRODUCT DETAILS

Oak pendant

Category: Lighting

Finish: Natural oak

Supplier cost: CAD 420.00

Markup: 40% · Margin: 28.6%

See your costs. Protect your margin.

The concept board populates the master budget automatically.

Review product specifications, costs, custom markups, and margins. Break down the budget by room, category, or vendor.

LIVING ROOM • ILLUSTRATIVE FIGURES • CAD

Product	Category	Cost	Markup	Client price	Margin
Ivory sofa	Furniture	2,100.00	40%	2,940.00	28.6%
Oak pendant	Lighting	420.00	40%	588.00	28.6%
Sand rug	Textiles	650.00	40%	910.00	28.6%
Project total		3,170.00		4,438.00	28.6%

Product images, specifications, and supplier details remain part of the master budget.

05 / SPECIFICATION CHANGE

Fewer pricing errors. Less retyping.

The client changes the pendant. Update the specification once.

Linked records update from the revised specification

Concept board

Brass pendant and revised specifications

Master budget

Pendant cost: 485.00 · Client price: 679.00

Linked draft documents

Revised product details and prices update automatically

Client-sent documents are never changed automatically. Net Atelier asks whether you want to update them.

Less admin when ordering from suppliers.

Create the draft purchase order from the master budget.

Use the product specifications and supplier costs already in the master budget. Review the draft purchase order before sending it to the supplier.

DRAFT PURCHASE ORDER · ILLUSTRATIVE EXCERPT

Example supplier

Living room · CAD · Excludes tax and delivery

Product	Specification	Qty	Unit cost	Line total
Brass pendant	Brushed brass	1	485.00	485.00
Draft total				485.00

Current product specification and supplier cost, ready for review.

Know what is ordered, invoiced, and paid.

Create the client invoice from the master budget.

Use the current specifications and client prices to create the draft invoice. The project financial view shows purchase orders, issued invoices, and which invoices have been paid.
